

SAHARISH KHAN

+91 935-231-2449

Ladpura, Kota, Rajasthan, India

abdulmutallibkhan00@gmail.com

Career Objective

Results-oriented Software Engineer and aspiring Data Scientist with a solid background in computer science, machine learning, and data analytics. Experienced in full-stack development, creating smart systems, and turning data into useful insights. Good at solving problems, working with others, and launching scalable solutions. I am passionate about using AI and data-driven methods to encourage innovation in fast-paced settings.

Education

Bachelor of Engineer
in **Computer Science**
Nitte Meenakshi
Institute of
Technology,
Bangalore, India
CGPA: 9.18

12th Grade (CBSE
Board), [**Decent**
school],
[kota, rajasthan,
india] - **84%**

10th Grade (CBSE
Board), [**Decent**
school],
[kota, rajasthan,
india] - **84.2%**

Skill

- Programming
Languages: Java,
C++, Python, C, scala
- Web Development:
Full Stack Web
Development
- Database
Management:
MongoDB, SQL
- Data Analysis: R
Programming
- Machine learning
- Data science and
analysis

Projects

ThinkSync: AI based personalised app which think in sync with user

-Building an intelligent, privacy-conscious solution that personalizes digital experiences based on user behavior, preferences, and context while ensuring data privacy, cross-platform consistency, real-time adaptability, and measurable impact.

Tech Stack: Full-stack development with React.js, TypeScript, Tailwind CSS, FastAPI/Node.js, PostgreSQL, Redis; integrated pretrained model

[Github-repo-link](#)

MovieRec: Movie Recommendation System

- It is a hybrid recommendation system in which model is train using dataset and Big Data Pyspark ALS algorithm which then used to give real-time recommendation according to userId and watch history .

Tech Stack: Flask (Python), Apache Spark (ALS Collaborative Filtering), React.js (Vite), MovieLens Dataset, Model Serialization & Deployment.

[Github-repo-link](#)

PlacelQ: Privacy preserving job readiness and candidate matching for HR analytics platform

PlacelQ is Placement Intelligence Platform which Built an AI-driven platform using multimodal analysis, predictive analytics, and autonomous agents to optimize job readiness and hiring decisions..

Tech Stack: React UI , Node/Express API , MongoDB + S3 , Python

ML-Stack:Python, FastAPI, BERT (NLP), XGBoost, Machine Learning Pipeline

[Github-repo-link](#)

Certifications

- Applied Linear Algebra in AI and Machine Learning - NPTEL
- Java Foundation Course - Infosys Springboard
- R in Machine Learning - Infosys Springboard
- MongoDB Certified - MongoDB
- Full Stack Web Developer - FreeCodeCamp
- Machine learning Foundation certificate-Infosys springboard
- SQL certificate course - Simplilearn
- AI and Machine Learning -PreplInsta
- Applied Data Science with python - Simplilearn

Soft-skills

- languages known
 - English -100%
 - Hindi-100%
 - urdu-100%
 - Arabic-70%
- Quick learner
- Public speaker
- Good presentation skills
- Leadership qualities
